

CHE 445: Chemical Engineering Laboratory II
Design of Cure Cycles for Thick Section Composites

Experiment #2 Evaluation Form
Total Basis: 25 points

Group: _____ **Names:** _____

Data Report: *Subtotal Basis (15 points)*

Treatment of experimental data: *Basis (5 points)*

Value of comparison between experimental runs: *Basis (3 points)*

Presentation of Figures, Tables, and Schematics: *Basis (5 points)*

Quality of the Outline for the Final Report: *Basis (2 points)*

In-Lab Performance: *Subtotal Basis (10 points)*
